Ludlow, KY Code Enforcement to Manage Cases with Comcate Software

Building and Zoning Department Selected Comcate for Ease of Creating and Managing Cases

In the City of Ludlow, a Cincinnati suburb on the Ohio River, code enforcement violations are managed by a single Officer who also manages the City's building and zoning inspections, and a Code Enforcement Specialist who manages the administration of the code enforcement cases. The CE Specialist was very impressed by Comcate's intuitive and easy-to-use case creation and management functionality.

Representatives from Ludlow were also impressed after seeing Comcate software being used by CE departments in Covington and Bellevue. The affordable, hosted software can quickly pay for itself in staff time and faster processing of standardized and well documented cases.
