City of Kearny, NE Tracks Permits and Inspections with Comcate

Inspections and Permits to be Managed with Help of Comcate's Innovative Software

The City of Kearney has been using Comcate eFeedback Manager to manage citizen requests since 2006. Kearney is of many Public Agencies very satisfied with Comcate's commitment to developing easy to use, efficiency enhancing software for Public Agencies. When the City wanted a new software solution to help them track and manage permits, they spoke to Comcate.

The City's Permitting Department discussed their specific needs with Comcate and Comcate software was able to address them. Comcate's clients benefit from a large family of clients with shared Best Practices. Comcate's product enhancement strategy routinely includes the integration of ideas and requests from the client base. Comcate clients recognize the company's commitment to the relationship and know that their needs will be heard and understood.
