

ANIMAL CONTROL MANAGER

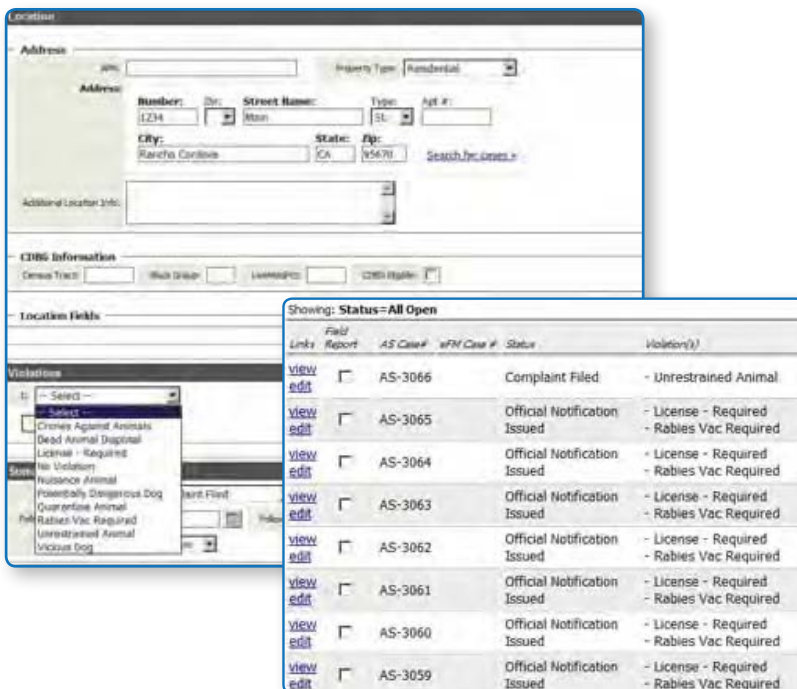

The mobile, affordable and easy-to-use software for animal control officers to increase the efficiency and the standardization of animal case management.

Comcate is proud to introduce Animal Control Manager, mobile and affordable software that improves the efficiency and standardization of animal control case management.

- Animal control officers trust Animal Control Manager.
- Case management is more efficient.
- Remote access to cases and code data, the ability to communicate with other officers, the ability to generate notices and schedule visits in the field, and standardization of the case management process increase effectiveness.
- Officers can generate activity reports and reports with case aging to gain insight into violations and repeat offenses. Optional GIS integration gives officers the geographical locations of cases.

and efficiency.**

The screenshot displays the software interface for Animal Control Manager. It includes a 'Location' form with fields for address, city, state, and zip. Below the form is a table of violations with columns for 'Field', 'Link', 'Report', 'AS Case #', 'w/RY Case #', 'Status', and 'Violation(s)'. A dropdown menu is open over the 'Violations' column, showing various violation types such as 'Crimes Against Animals', 'Dead Animal Disposal', and 'Licensing - Required'.
