

ANNOUNCING THE NEW CITIZEN MOBILE APP AVAILABLE TODAY

My View

When customers share their concerns, challenges, and problems they are trying to address it allows us to work with them to develop solutions. We are committed to being a long-term partner and help customer address different concerns over time. Comcate's new Citizen Mobile App is an example of listening to customers and incorporating their needs into an updated product. We have added some really intuitive features that are configurable to fit your communities needs.

Improving Engagement with the New Citizen and Staff Mobile App

Comcate has been working to improve engagement in your community, through the communication channels that citizens find most convenient. We have watched communication channels expand from phone and in-person to include mobile phones, email and social media. The fastest growing channel is engagement with smart phone.

Comcate has updated and improved its Citizen Mobile App to better serve your community. We listened to the concerns of your citizens and staff to make the Citizen Mobile App a more powerful tool to facility citizen and staff engagement.

Here are a few of the highlights of the new Citizen Mobile App:
