

PERMITTING AND INSPECTION MANAGER

An easy-to-use and affordable solution for municipal permitting and inspections management to make your staff highly mobile and extremely efficient.

Building inspectors need a user-friendly solution to help streamline their permitting and inspection process. Comcate has engineered a solution that delivers that and more. With Comcate's Permitting and Inspection Manager, staff will become more organized and efficient through the use of customized online tools.

A Bird's Eye View of Permitting and Inspections Manager

Comcate's solution allows staff to conduct more permitting and inspection tasks from the field. By utilizing the online checklist inspectors can easily document their work, log case details and schedule follow-up tasks. Print permits and automatically populate permit information without having to go back to the office.

No Hardware or Software to Install

Comcate hosts your software in the cloud to ensure 24/7 web access and connectivity, with robust network and power redundancies and round-the-clock system monitoring. Your agency does not have to purchase any new hardware or software.

Comcate's Permitting and Inspection Manager web-based software simplifies the resolution of violations and cases, provides powerful case management, and improves citizen awareness and compliance.

Easy to Implement, Easy to Use

Permitting and Inspection Manager is customizable to meet your agency's specific needs. It is user-friendly, intuitive and requires just one hour of training to get started.

Local Government Program Expertise

Comcate brings over 10 years of experience implementing municipal programs. Comcate expertise allows for effortless integration between the Code Enforcement module, citizen engagement, and case reporting.

Permit Management Made Easy

Organizations using antiquated workflow processes to archive their information find themselves bogged down with tedious work that could be made easier. Permit management is simple with Comcate's Permitting and Inspection solution because everything is documented digitally. Pulling up information on permits is as easy as typing keywords and hitting a button.

Improve Staff Satisfaction

Rather than relying on clipboards and paper files while in the field, permitting and inspection officers are armed with tablets that take paperwork out of the scenario and make their jobs more enjoyable. This not only improves the accuracy of their work, but also improves their efficiency, which means they can cover more ground and complete more activities each workday.

Improved Management Insight

Bringing accountability into the workplace gets easier with Comcate's solution because management can track exactly how much time an employee spends on every case. With more insight into day-to-day processes, management can make fact-based decisions that improve the efficiency of the entire department.

At Comcate, we believe in empowering public agencies.

Founded in 2001, Comcate offers cloud-based solutions for governments and local municipalities that deliver results. Comcate solutions help agencies effectively execute crucial programs, efficiently manage their assets and improve service to local citizens through program-based offerings. Drawing on the expertise of retired city managers and Silicon Valley technologists, Comcate promotes improved productivity and cost savings for local government while enhancing community involvement for their residents.

Comcate supports the functions of local governments providing outstanding service to their communities in more than 30 states and logs over 20,000 client cases each month. As a leading national provider of customized agency solutions, Comcate offers cloud-based citizen engagement, code enforcement, animal control, public records management, permits and more, delivering software that is affordable, easy-to-use and promotes interaction between agencies and citizens through advanced mobile technology.
