

CODE MANAGER

The Most User-Friendly Code Enforcement Solution

Code Manager is modernly designed software that takes every facet of code enforcement and bundles it up into an easy-to-use tool, allowing staff to work efficiently from the field with mobile technology while giving other staff real-time access to case information, and supervisors the ability to track team metrics and results.

- Seamless Field to Office Experience
- Case Resolution Tracking
- Reduce Cost & Increase Efficiency
- Data Analytics Reporting

No Hardware or Software to Install

Comcate hosts your software in the cloud to ensure 24/7 web access and connectivity, with robust network and power redundancies and round-the-clock system monitoring. Your agency does not have to purchase any new hardware or software.

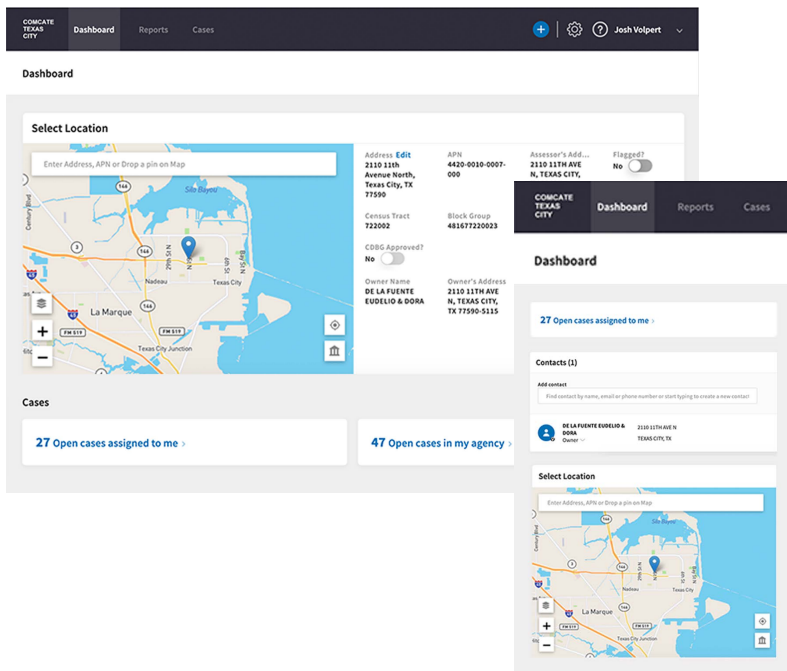

Comcate's Code Manager web-based software simplifies the resolution of violations and cases, provides powerful case management, and improves citizen awareness and compliance.

Easy to Implement, Easy to Use

Code Manager is customizable to meet your agency's specific needs. It is user-friendly, intuitive and requires just one hour of training to get started.

Local Government Program Expertise

Comcate brings over 10 years of experience implementing municipal programs. Comcate expertise allows for effortless integration between the Code Enforcement module, citizen engagement, and case reporting.

Optimize for Field and Office Use

Code Manager uses an upgraded, responsive design that is optimized for iPad, allowing officers to easily manage cases from anywhere in the field and can leverage modern GIS when implemented. It also gives local agencies the ability to manage multiple entities like abandoned vehicle and animal control.

Efficient Case Management

Efficiency is the focus at Comcate in improving the effectiveness of public agencies. By eliminating reliance on paperwork and manual processes Comcate has built automation into the workflow, improving the number of cases an officer can address each workday. Furthermore, cases are completed with greater accuracy and are routed automatically to the appropriate staff throughout the agency.

Improving Staff Morale

Nobody enjoys being bogged down under a load of open cases. Comcate addresses this issue by improving the work processes of code enforcement staff, giving them the tools that make their job easier and more enjoyable.

Visibility: A Deeper Look Into the Workday

Comcate gives supervisors the tools they need to review the work of their officers. How many cases are they able to close in a week's time? How much time are they spending per case? These are questions Code Manager can easily answer with customized reports that can be generated daily, weekly, monthly or annually.

At Comcate, we believe in empowering public agencies.

Founded in 2001, Comcate offers cloud-based solutions for governments and local municipalities that deliver results. Comcate solutions help agencies effectively execute crucial programs, efficiently manage their assets and improve service to local citizens through program-based offerings. Drawing on the expertise of retired city managers and Silicon Valley technologists, Comcate promotes improved productivity and cost savings for local government while enhancing community involvement for their residents.

Comcate supports the functions of local governments providing outstanding service to their communities in more than 30 states and logs over 20,000 client cases each month. As a leading national provider of customized agency solutions, Comcate offers cloud-based citizen engagement, code enforcement, animal control, public records management, permits and more, delivering software that is affordable, easy-to-use and promotes interaction between agencies and citizens through advanced mobile technology.
